What previous participants say about our implant training programmes?

I was really over-conscious when joined their implant course coming all the way from Libya and had no knowledge about the implants. But I am really thankful to dr ajay and dr sunita, as after joining their implant course, now I am placing implants in my clinic and using multiple systems. Dr Ajay is really a talented guy and good teacher too.

Dr. Ahmed Ameen – Libya Email: drahmeddentist@yahoo.com

I had no knowledge about the implants before I joined their course but after joining this course now I am successfully placing implants in my own clinic. The best part of this course is very friendly behaviour of dr ajay and dr sunita so the participants feel very comfortable to discuss their queries. Dr ajay remain very supportive for the planning of your own cases in your clinic after the course so you feel very comfortable in your implant practice if your teacher is above you to help any implant procedure at last I could find a best implant teacher and suggest every dentists to go and learn implants from Dr. Ajay.

Dr. Rohit Sharma – himachal Pradesh – India Email- healintouch@rediffmail.com
